>> Innovative Storage for Demanding Spaces

Product Brochure

It's true. The sleek, elegant styling of an Onrax overhead storage unit is pleasing to the eye. But don't be fooled. Our racks are as much about engineering as they are design.

Take our new streamlined Enduro-Deck System. It is not only visually stunning, but represents a leading advancement in shelving technology. Coupled with the exceptional strength of our original 14 gauge steel C-channel box frame, you're set to enjoy up to 800 lbs. of clutter-eliminating power. The most of any ceiling mounted storage unit on the market today.

But don't take our word for it. Order your unit today and discover a work of science. And art.
