Versa Lift is the ultimate solution to your storage problems. Now you can keep your home and garage neat by sending storage items into the attic and out of sight with push-button ease!

Living the good life, you accumulate many useful items that inevitably begin filling up your garage. So, how can you organize it all? You can stack it, rack it or hang it from the ceiling, but your garage will still look and feel cluttered! Only the **Versa Lift** will let you store everything out of sight and bring it back in seconds whenever you need it! Other storage systems can't give you easy access to hidden attic storage space. Only the **Versa Lift** can!

Versa Lift eliminates the danger of carrying storage items up steep, shaky ladders. You need only press a switch on the hand-held remote to magically transport heavy loads either to or from the attic... It's so easy, **Versa Lift** actually makes organizing and storage fun!

In flood-prone areas **Versa Lift** will quickly move your irreplaceable documents, photos, and cherished possessions to your attic, the highest place in your home and the last place to be reached and damaged by rising water!

The **Versa Lift** is also perfect for homes with elevated living quarters, such as split-levels, coastal homes, and homes with basement living rooms. The **Versa Lift** eliminates the constant need to carry groceries, laundry, tools, portable appliances, firewood and other heavy items up and down your stairs!

Don't risk injury climbing stairs with heavy items! ▼

Versa LiftTM

Ultimate Home Storage System

The Versa Lift will make your attic space into your own private mini-storage. Now you can get completely organized while Versa Lift takes care of all the heavy lifting!

The Versa Lift's unique Level-UpTM system closes the ceiling port while raising the platform flush with the upper floor, so you can just slide cargo on or off the platform! Versa Lift installs in a new framed opening like the one used for a folding attic ladder.

Versa Lift's unique platform frame adds stability while it defines & protects the cargo space.

Versa Lift Auto-CloseTM seals the ceiling opening and automatically adjusts for joist heights to 18".

Versa-RailTM

Attic Ladder Safety Railing

Building codes require safety railings on stairways and landings in the home. However, the attic ladder landing has been ignored and left unprotected by home builders and code inspectors for years.

The new Versa Rail provides a simple, low-cost solution to this safety problem and installs in minutes with ordinary tools!

Problem: Entering or exiting the attic from an attic ladder is very dangerous without a hand-rail... **and** the ladder opening is a falling hazard while you work in the attic!

Easy Solution: The Versa Rail dual grab rails provide comfort and security when you are entering or exiting the attic... **and** it surrounds the ladder opening for safety!
